

WGI WIRELESS.....

..... FundDealerNet™

Introducing Winsted Wireless:

Winsted Group is the first Canadian mutual fund systems vendor to offer wireless access to account information from wherever you can use a browser-enabled cellular phone. With Winsted's Wireless service, investors and Investment Professionals can get anytime, anywhere access to consolidated portfolio and account information, as well as up-to-the-minute information on fund pricing, current positions, and portfolio balance. For more information click here, www.funddealernet.com
www.winstedgroup.com

You can already take advantage of secure access to your account information 24 hours a day, 7 days a week - **anytime** you need it with ISD-Internet Statements on Demand, part of the WGI FundDealerNet™ application suite..

Now you can take it with you - **anywhere*** you need it. With WGI's new Wireless Service you can gain immediate access to essential, accurate, real-time information including:

- Portfolio and Account information including current valuation
- Mutual fund prices

Winsted Group Inc. is dedicated to providing you with the latest tools and technology and is the first mutual fund system provider in Canada to bring you wireless access anytime, anywhere, coast to coast.

Getting Started

All your clients need to get started is a PIN from your representative client list, an internet-ready cell phone, and a supporting service plan with your cellular service provider.

Security

The WGI Wireless network uses 128-bit strong encryption for all communication, protecting all your information sent to and from your mutual fund dealer.

Future Enhancements

Winsted Group Inc. will continue to develop applications and information for internet-ready cell phones, PDAs (such as the Palm), two-way pagers (such as RIM's Blackberry), and other wireless devices. Watch www.funddealernet.com for upcoming wireless announcements

- *Users must be in digital network coverage area for service to operate.*
